## **Launch of Landscape Concept Centre with Royal Grass® by Tai Kwang Garden**

“Experience the fun and art of modern living, naturally”

Singapore , 25<sup>th</sup> July 2008

At the first day of the Singapore Garden Festival, Tai Kwang Garden Pte Ltd is excited to announce the launch of their new Landscape Concept Centre. Tai Kwang has been expanding their product and services portfolio focused on natural living, water scape and grassart.

Christine Neo, Managing Director of Tai Kwang Garden commented “a long term dream became a reality by the launch of the concept centre as we really like our clients to experience various landscaping design styles and products before making important decision on what to invest in”.

Recently Tai Kwang became an official Royal Grass® partner. Royal Grass® is a international brand for top quality and unique synthetic grass products. Royal Grass® solutions are suited specifically for landscaping applications such as garden lawns, roof gardens, balconies, playgrounds, pools and water feature areas as well many other type of applications like commercial.

“Royal Grass® products have the proven ability of truly beautifying locations and creating new outdoor and indoor entertainment havens which will always look lush and green and require minimal care” adds Christine.

Chris Kooijman, Director of Exteneo added “We are finding that customers make Royal Grass® more and more part of their lifestyle decisions as well as consider our products as a centre piece for enhancing their landscape designs with a beautiful, functional and low maintenance synthetic grass solution. We firmly believe in our product range and with Tai Kwang and their concept centre we can provide first rate expert advice to all our customers in Singapore”

# PRESS RELEASE

### **Royal Grass® Deluxe**

The all new Royal Grass® Deluxe product is the latest edition to the unique range of top quality artificial grass products. The Deluxe has a full grassy density and feels like a wonderful thick lawn. Contrary to Royal Grass® very successful Exclusive line and Parc product the Deluxe product is not finished with a sand infill. Instead a frizzy brown nylon fibre is used to replace the sand. This makes the Royal Grass® Deluxe very suitable to be used for indoor applications and where sand filler is not desired often at places like roof terrace, balcony and around water features, swimming pools or Jacuzzi.
