

Royal Grass[®] Silk 35

**powerful
yet soft**

The best-seller among families with young children. A strong, silky quality with nice, full and high fibres. A very popular quality, especially at day-care centres and nurseries.

Additional advantage

The grass has a strikingly natural, fresh and summery colour. This makes this type of grass also very suitable for decorative applications.

Perfect for

- Extremely suitable for gardens
- Families with children
- Green areas of hotels and restaurants
- Roof terraces and balconies

Colour

Olive green

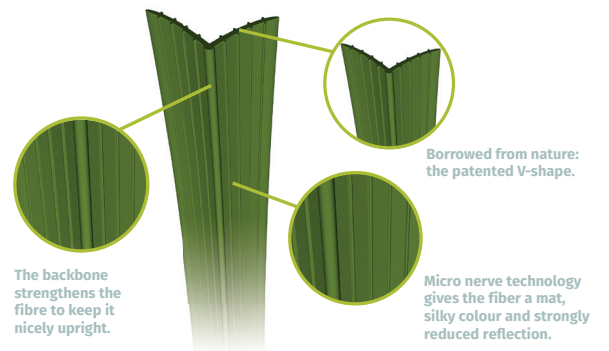

Installation advice

To give the grass maximum stability, it is recommended to spread special dried silica sand in the lawn: approx 5-10 kg/m².

Unique fibres with an unrivalled appeal

Since the beginning of this century, Royal Grass[®] has been focusing exclusively on artificial grass for landscaping. The brand has a reputation of being one of the most innovative brands in the world. Among other things, it has developed the V-shape and the revolutionary MiNT[®] technology. These innovations give the grass its unrivalled resilience, a natural glow and a unique softness.

The backbone strengthens the fibre to keep it nicely upright.

Borrowed from nature: the patented V-shape.

Micro nerve technology gives the fiber a mat, silky colour and strongly reduced reflection.
